Dr. Renaud Paulian, recently of Paris, editor of "L'Entomologiste" and author of "Les Coleopteres", left France on July 7th to take over his new duties as Assistant Director of the Institut de Recherches Scientifiques in Madagascar. (See page 33 for Dr. Paulians new address).

Dr. E. Gorton Linsley, of the University of California at Berkeley is spending the year 1947-48 on sabbatical leave on a Guggenheim Fellowship with headquarters at the American Museum of Natural History, New York. His study will be devoted to completion of a monograph of North American Cerambycidae.

The 8th International Congress of Entomology will be held in Stockholm, Sweden, August 8-15, 1948. Prof. O. A. Johannsen of Cornell University, a member of the executive committee advises that early arrangements must be made in order to secure booking on steamships and for housing arrangements in Stockholm. Also it is noted that the thirteenth International Congress of Zoology will be held in Paris sometime in July, 1948.

Notice has been received regarding a new exchange publication called "Information of the Friends of the Entomological Science, Breeding, and Research". The editor and publisher is Otto Muhr, Wien 8./65, Lerchenfeldestrasse 46, IV. Treppe, 57, Austria.

Mr. Muhr is anxious to obtain the names, addresses and interest of as many entomologists as possible. I believe that some issues have already appeared, but I have not seen a copy. R.H.A.
